Certain incorporated towns in this province, which have borrowed money by issuing debentures and which are required by the by-law under which the debentures were issued to deposit a certain sum annually as a sinking fund to meet the principal when it becomes due, have not so far deposited a single dollar for that purpose. Should there not be a system of inspection by which so grave a neglect might be brought to notice, and the corporation compelled to comply with the exaction of the by-law in that respect?

THE EVENING SUN thinks that it is exceedingly difficult to get up any political excitement in the cities immediately on the eve of the holiday season. The Sun ought to know as it has been doing its best to get up a "Sifton boom," but bidding is so slack that our contemporary is compelled to attribute it to the holidays. Mr. Skimpole used to attribute the blues to the east wind, and Mr. Silas Wegg his rheumatism in his wooden leg to the coming foggy season. It is the first time, however, that a Sifton boom is synonymous with Christmas holidays. A poor excuse is an improvement on none.

OUR LOCAL CONTEMPORARY says "the electors of Brandon are intelligent," and then it proceeds to lay before them a liberal amount of claptrap which it knows to be the most eminent blunder. This is just where the organ makes itself ridiculous. The interests of the Dominion are in safer hands than if they were entrusted to the gentlemen who have proved themselves distinguished incompetents, and the very class of men whose support the Sun's champion is covertly endeavoring to obtain, know well enough that the Sun's friends are not to be trusted further than Taurus could be flung by his caudal appendage.

THE LOGIC of Mr. Sifton's organ reminds us of the logic of the trout freshman. Hear it: "The leader of the Ottawa Government has declared his determination to carry out the railway policy of the Dominion. One condition of that policy is the disallowance of Manitoba Railway charters. Mr. Woodworth says he will co-operate with the Ottawa Government; therefore Mr. Woodworth will not only submit to disallowance, but will approve of and advise it."

This is patching it up and going it strongly. It is mere assertion, conclusion without premises, a deduction without a statement, an answer without a question. The ratiocination is according to the "trout freshman" who was required to prove that Jeremiah King was a cucumber. He proceeded, Jeremiah King, therefore King Jeremiah, hence Jerry King, and King Jerry, likewise King Jer, therefore Jer Kin, which is a cucumber if pronounced aright, and the conclusion stretched a little.

MR. SIFTON'S idea of "securing that freedom which the framers of our constitution contemplated," consists in the belief that if the electors of Brandon return him to the Legislature the constitution will be in safe hands. Inasmuch as the Exclusive Powers of Provincial Legislatures is defined by the British North America Act of 1867, which was ratified by the Imperial Government and the Manitoba Act, which is the Provincial Organic Act, creating this Province, and was framed by the Dominion Parliament; we don't see how the election of Mr. Sifton is going to effect very much in favor of enlarged freedom. Indeed such men as Mr. Sifton, whose every step is made to embarrass the Dominion Government, are the very ones to elect as stayers at home. His antagonism to the Dominion Government, especially to the Dominion First Minister, is well known, and although it is an opposition that disturbs that Right Honourable statesman but little, it proves that Mr. Sifton is not patriotic enough to stay at home, when home is the best place for him to serve his country and his party.

Color Notions.
An English lady writes: "I think our English color notions are taking a turn for the better. The melancholy, saturnine greens and yellows of a season or two past have almost disappeared, and the dark shade of red so much seen now is perfect in its way. Brunettes should be thankful for it, as well as for the beautiful gold color, which was seldom seen in dresses until two or three years ago. Blondes can wear it too if they do not incline to sallowness. I noticed a superb blonde at a recent dinner venturing to wear a gold brocade a shade darker than her hair, and relieved with golden-brown velvet begonia leaves. The effect justified the hazardous experiment."

The man who governs his own spirit is greater than he who rules the world.

INTER-PROVINCIAL.

Clipped from Exchange.

EXCHANGE.

(From Monday's Intercolonial.)

Capt. Nash telegraphed Attorney General Sutherland on Saturday asking leave of absence in order to enable him to go to Ottawa as at the request of the council and citizens. The Attorney General at once acceded to the request and granted leave of absence for three weeks.

Mayor Carney and Capt. Nash left on Sunday morning for Ottawa, and were "seen off" by a number of prominent citizens. We may look in a short time for the welcome news that the arrangements which are to secure our railway have been executed, signed, sealed and delivered.

Mayor Tennant and Mr. Muchmor, the West Lynne delegation to Ottawa, will go by the night train south. He leaves with hearty good wishes that success may attend his mission.

One of the singularities of our crank contemporary over the way, is that it is supporting two candidates in one constituency—Messrs. Martin and Wylie. We don't think the latter cares much about the support which is liable, as Mr. Buchanan has found out, to do him more harm than good.

The Carney House narrowly escaped being destroyed by fire early Sunday morning. At about 2 a.m., as Mr. A. B. Sabine was going to his room he observed smoke issuing from the parlor on the first floor. Entering the room he found that the large hose burner stove had upset, one of the legs having given way, the carpet was on fire and two handsome windows curtains forming part of the supplies of a commercial traveler, were partially burned. Mr. Sabine instantly summoning assistance, quenched the incipient conflagration, and saved to Emerson the last hotel in the Province.

His Worship Joe. Tennant, the whole-souled Mayor of West Lynne, dropped in on the den last evening on his way to the station with Mr. Muchmor. He was as lively as usual—and full of spirits, usual only! He threatened, on his return, to start a daily across the creek. Pie in, your worship! Well, exchange.

TO THE ELECTORS.

OF THE

Electoral Division of Brandon

GENTLEMEN:

Having accepted the nomination of the Conservative Convention for the electoral division of Brandon, though reluctant to enter public life, yet desirous of serving my country and my party, I am now before you as a candidate to represent you in the next Parliament in the Province of Manitoba. It is almost unnecessary for me to say that I am a life long Conservative, and a staunch supporter of Sir John A. Macdonald and his Government. I believe it to be the best interests of this Province that we should continue to co-operate with those who have made us and our country what we are to-day, namely, the GREAT CONSERVATIVE PARTY OF THE DOMINION, thereby promoting British interests in Canada and the continued development and advancement of the great Canadian North West.

I hold that it is the duty of our party to adopt every constitutional measure within our reach to procure for this Province every right of self government and other advantages enjoyed by the other Provinces of the Dominion under the British North America Act. I deplore the action of those who are endeavoring to stir up a spirit of discontent among our people by raising false issues, and by attempting to secure the return of a Government at the expense of our country's welfare.

I am of opinion that the rights of Manitoba can be better secured and maintained by the return to Parliament of men like myself who are in accord with the Central Government, and who have no motives in being elected other than to serve, to the best of their ability, as I pledge myself to do, their constituents and their country.

If elected, I will advocate the strictest economy, consistent with efficiency, in the public expenditure, and, at all times, you will find me ready to advance the interests of the large and influential electoral Division of Brandon, in which, as most of you are aware, I have large landed and pecuniary interests. I hope, before the day of election, to make a personal canvass throughout the Division and hold meetings, at which I will more fully express my views upon the several questions now being agitated before the people.

I remain, Gentlemen, Your obedient servant,

J. E. WOODWORTH.

BRANDON BUDGET.

The municipal fathers of the municipality of Brandon were looking up a town site for the municipal buildings today. They have not yet fully made a selection.

The regular meeting of our House of Representatives will be held at the Fire Hall, on Tuesday evening, the 2nd of January, instead of Monday, which happens to be New Year's day, and therefore a holiday.

We had a pleasant call to-day from Mr. J. H. More, druggist, of Guelph. Mr. More like all eastern foreigners, expressed his great astonishment at the size, location and general prosperity of Brandon.

The trial of Chas. F. Stanton, one of the Grand Central businessmen implicated in the attempt to get away with a farmer's wife of hills while occupying the same room, was to come off to-day under the Speedy Trial Act, in Winnipeg. Our readers are familiar with the facts of the case.

Hambly & Miller have supplied a want. They have opened select bath rooms on 5th street, just the 5th floor from 5th street. There is a bath dressing room, a good bath as well as a good shampoo may be had in no time. We hope to see the enterprise of these gentlemen properly appreciated by our citizens.

We had a visit to-day from Mr. James Fleming, who is settled about twenty-five miles south-west of this place. Mr. Fleming is an old Red River settler, an ex-British Columbia, who has traveled over a good portion of this fair Dominion. He speaks very highly of the South-West as a good farming region.

There was a late meeting last evening, at Peacock settlement, about seven miles from this place. Mr. J. W. Sifton was chairman. Remarks were made by the chairman, Mr. Ferries and others. There were quite a number from the City, and a very pleasant time was spent. Peacock is on section 35, township 8, range 20 W., and it is a flourishing settlement. The social was held at the house of Mr. McBurnie.

Chief of Police McMillan thinks that he has arrived at the true inwardness of the case time ago watch abstracting case, which occurred in the Royal Hotel. Yesterday he arrested a man named Corbett, who had the identical watch. This party informed the chief that he had bought the watch from Mr. Maw, who was also arrested, and who states that he got it from another party. There will be an examination to-morrow.

CATCHES BUT NOT CAPTURED.—On Tuesday as Rev. Mr. Lawson and Mr. Phippen were driving in a cutter one mile this side of Chatter, they espied a wolf which was not in the faded garb of a sheep. It was a prairie rambler, and the gentlemen gave chase, overhauling the animal in no time, running him down in good style. Rev. Mr. Lawson used his whip on the elf four or five times, but without much effect. In the absence of a club the animal could not be despatched, so he was permitted to retire without further molestation.

We learn from a Graveland correspondent that the C. P. R. Co. have put in a siding at that place, but there is yet no accommodation at the switch for passengers or freight. There is no hotel or waiting room. This suggests a good opening for some enterprising hotelier. We have been informed from the same source that some of the farmers at Oak Lake have as many as four thousand bushels of wheat for shipment, but as there is no warehouse at the point, they cannot ship from there. We think that if they were to put in an application to the Company, it would be attentively considered and acted upon, sooner than if no steps be taken.

Mosters, Mun and Shaw, the Skating Rink proprietors, are meeting with great success in their canvass for the prize, which will be awarded at the carnival, on Wednesday evening. Our merchants and citizens are coming down handsomely. The costume list embraces a very extensive range of characters, historical and contemporary. We hope to see a very large attendance on Wednesday evening next. We are certain from what we know that the visitors will be well rewarded by dropping in. Messrs Mun & Shaw are deserving of every credit for the pains they have taken to secure for the people of Brandon a winter evening of amusement, healthy, merrily, but to say a scholastic and popular recreation.

MISCELLANEOUS MATTER.

(By Exchange.)

Mr. Rufus Stephenson, Land Commissioner, has arrived from the North-West to prepare his report to the Government.

During the debate on the budget in the Senate Lord Selkirk's speech for negotiating in the matter of uncompleted railways, with a view of assigning their completion as a portion of the public works to be executed. He hoped and believed the state of the finances was more favorable than the Budget Committee supposed. The difficulties of the situation were the outcome of a series of poor harvests, the loss of capital through speculation and laxity in the collection of taxes. The anticipations of a surplus had received fallacious answers in some instances, but he believed the existing state of things will be only temporary. It was useless to propose fresh taxation, but it was necessary to stop the growth of expenditure, which must be proportioned to that of income. It behooved statesmen to place the finances on a sound basis in order to prepare the country for the renewal of the powers of the Chambers in 1885, as it was especially advisable not to accumulate difficulties for that period. He will resume his speech to-morrow.

London, Dec. 19.—Russia's military activity has caused no little anxiety. She has created a formidable body of mounted infantry and has constructed eight new frontier fortifications. In consequence of this the announcement of the definite terms of the alliance between Germany and Austria is received with great satisfaction as forming a counter check to Russia's ambitious movements.

PERSONALS.

P. O. Inspector McLeod is in town, looking as well as usual. Dr. Spencer left for Montreal to-day, whether he goes to see his wife who is dangerously ill.

Mr. Larkin, of the firm of Campbell & Larkin, leaves for Toronto on Monday. There is a sub rosa impression that Mr. Larkin has captured one of Toronto's fair daughter's, and that he will return a Benedict.
